

# Menopause Care with Gennev

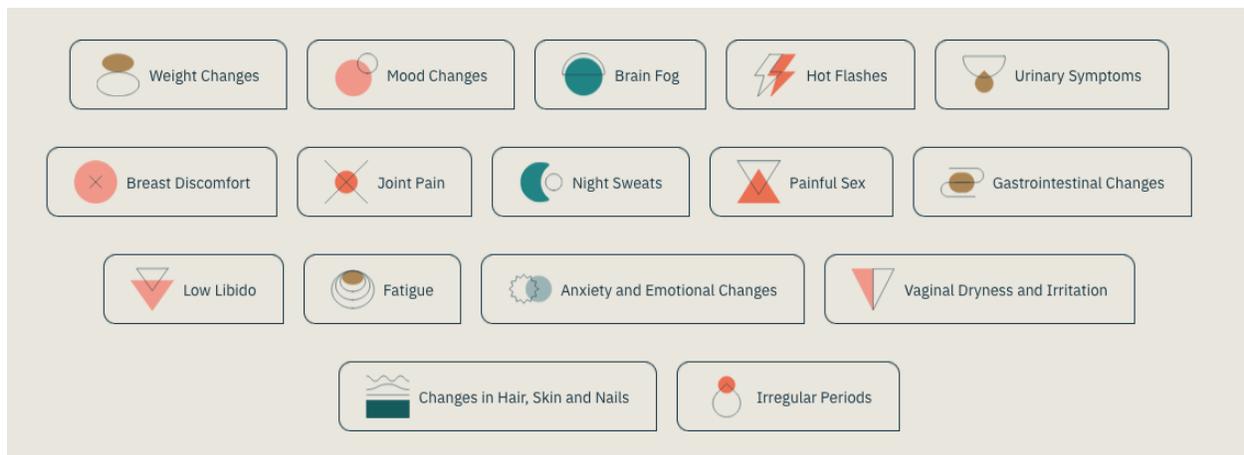

## Access Specialty Menopause Care from Gennev

Gennev offers virtual access to menopause-trained doctors and registered dietitian nutritionists (RDNs). Most patients can book a video appointment with a doctor in less than a week, and over half of Gennev patients find relief from symptoms after their first appointment.

- Video appointments in all 50 states
- Evidence-based treatments tailored for each patient
- Comprehensive support for the entire menopause journey

## What Gennev Can Treat

From perimenopause to post-menopause, Gennev provides fast, evidence-based relief for a wide range of symptoms.

## How It Works

1. Visit [Gennev.com](https://www.gennev.com) and click on “Get Care”
2. Create a Gennev account (takes just a few minutes)
3. Provide your health history and choose payment method (Gennev can bill through insurance or you can self-pay)
4. Book your appointment with a doctor or dietitian
5. Join your appointment from your computer

## **What Does It Cost?**

Gennev's comprehensive menopause care is covered by Aetna, Anthem UnitedHealthcare, with more on the way soon. Out-of-network coverage may also be available.

Even with in-network coverage, standard costs such as deductibles and copays will still apply. Use Gennev's [insurance lookup tool](#) to see if your benefits are eligible.

Note: Aetna and UnitedHealthcare are two carriers available through Unified's Aon Benefits Experience platform. Employees who have access to these carriers and are interested in Gennev's services can explore these options during open enrollment.

## **Learn More**

Visit [Gennev.com](https://www.gennev.com) to learn more about Gennev's care model and clinicians, and to access a library of helpful articles on menopause.
